5YR LEASE £9.00pw

2 Years Updates

The brand new MaxiSYS MS906SPRO EU edition, is our replacement the MS908s. Despite being a lower cost then the MS908s, the MS906SPRO EU has all the software functionality of the MS908s, but also has the extra benefits on being DoIP and CAN-FD compatible! The MS906SPROEU also has some more advanced software functionality that will allow end user to access Autel remote expert (operational Q422). The MS906SPROEU can be further optimised with our ADAS software, making a true replacement for the MS908s.

The MS906SPROEU is excellent for busy workshop tool, or technician, that requires superior coverage and capability, but at a very affordable price that isn't offered by our competitors. It will perform thousands of functions and with new updates being released weekly, we ensure your advanced MaxiSYS is 'best in class'.

X-431 EURO TAB III

Technicians can now get their hands on a newly developed, high-end vehicle diagnostic tool, the Launch X-431 Euro Tab III, featuring the new Smartlink® C VCI, an advanced module allowing for enhanced communication and functions.

Using the Android 9.0 operating system, Euro Tab III builds on the highly regarded Launch diagnostic technology, offering worldwide vehicle coverage, powerful diagnostics and numerous special functions.

The Euro TAB 111 includes 39 special reset and service functions, it also features the Launch CarSet Electronic and Smart professional databases, seamlessly integrated into the ultimate version of Launch diagnostic software. Advanced coding and online programming are also features.

The SmartLink VCI communicates directly with a vehicle for local diagnostics, and via the Internet using the Launch Super Remote Diagnostic (SRD) platform. This allows a technician to connect remotely with our service provider, who will be able to communicate directly with the vehicle and carry out almost any programming or diagnostic task.

The Euro Tab III includes the Launch professional database fully integrated into the diagnostic software. This will take the user directly from the DTC to a step-by-step testing routine, leading to the fault code solution. The new Tab III comes complete with the Launch O2-1 four-channel oscilloscope, as well as the Launch TSGUN and four TPMS sensors.

EURO TAB III FEATURES

- Intelligent diagnostics for 100+ car brands
- Topology mapping provides visual checking on DTCs and all systems' communication status
- Supports the following automotive communication protocols and standards: CAN / CANFD / DoIP / J2534 / D-PDU / RP1210
- Optional ADAS calibration function
- Advanced coding and programming function
- Diagnoses light, medium & heavy duty vehicles with Smartlink® C
- Wireless software update
- Built-in repair information and training video modules help to track and fix issues fast
- Two-year Launch UK warranty

BLUETECH FEATURES

- Flight Recorder**
Perfect for a one-man road test. Select your parameters, hit "Record" and review when back in the workshop. With its 4 GB internal storage capability, enjoy even more space to record all the data you need.
- 360° Multi-Colour Indicator**
Lets you check the status of the VCI at any time from any angle or position.
- Universal**
VCI can be used for cars, light commercial vehicles, trucks, buses, coaches & trailers.
- Battery Voltage Monitor**
Don't let a dead vehicle battery stop you working.
- WiFi & Bluetooth Connectivity to PC**
Wireless communication providing freedom to work anywhere in the workshop, whilst maintaining a seamless connection to the vehicle.
- Integrated DoIP**
No need of any DoIP adaptor cable. With its built-in functionality, the VCI can be plugged directly on DoIP communicating vehicles.
- Pass-Thru Support**
Quick and easy access to OEM flash-programming services.
- CAN FD Channels**
Future-proof design to make the diagnostic possible on vehicles requiring this data-communication protocol.

SECURITY GATEWAY: WHAT IS IT?

Certain vehicle manufacturers have implemented a secure gateway module to **protect critical ECUs**, this means the access to some diagnostic functions is restricted and requires registration and **authentication** through an **approved service**.

The DS Software grants access to the protected functions and full diagnostic capability on Alfa, Audi, Cupra, Fiat, Iveco (additional charge), Jeep, Mercedes, Seat, Skoda, Smart, Volkswagen, Volvo currently.

NEW velomount™ 3280 + velospin™ 8380P

velomount 3280 Tyre Changer

The velomount 3280 is a super-duty, high-performance tyre changer with 10" to 28" clamping via Centre-Post. The Centre-Post design eliminates any external clamping of the rim, instead securing the rim via cone and shaft arrangement, similar to a wheel balancer.

velospin 8380P Fully Automatic 3D Wheel Balancer with pneumatic clamping

A top of the line wheel balancer, which handles rims up to 30" diameter and guarantees speed, accuracy, and long life. 3D data entry is complimented by an impressive, full-colour TFT display and pneumatic clamping device, which removes the need for a manual locking handle and provides even better balancing accuracy through perfect centering on the cone.

velomount™ 3240

An automatic tyre changer ideal for use in busy tyre centres, which will operate on wheels up to 22" (external clamping), and boasting super-automatic operation; meaning the demount head is placed into position by the press of a button rather than manually via spring.

velospin™ 2000

A high-performance, Italian designed, 2D Data Input wheel balancer boasting the latest technology, but with an emphasis on simplicity and practicality.

- Handles rims up to 30" diameter
- 2D Data Input (optional upgrade to 3D available)
- Laser guidance for precise weight placement
- LED illumination inside rim for clear visibility
- Foot pedal spindle-lock for ease of weight application
- Automatic stop/start via lifting of wheelguard

- 10" to 24" clamping (22" external)
- Heavy duty, high performance structure

- velofit 4 Assist Arm for handling run-flat tyres etc
- Removable pedal box for easy maintenance

balco i-Lign

Tablet-based operation is becoming more and more popular and with i-Lign from Balco, you can now choose between tablet based 8CCD, or 3D technology.

You are free to take the 'readout' with you anywhere around the vehicle, you are not restricted to a single alignment 'station' and can use the equipment on multiple bays. In general everything is much more practical with a portable system. i-Lign knocks the ball out of the park when it comes to the functionality, capability and practicality offered up by a tablet-based aligner, and compromises on nothing with its deluxe 3-Point clamps and advanced technology.

i-Lign CCD Wheel Aligner

- Compact, portable trolley houses ALL components, whilst providing 'dock' charging for the measuring heads when not in use
- Tablet operation means the operator can move freely and see live readings
- Can be used on 2 Post lifts
- Automatic look-up of the EXACT vehicle by Reg No makes it super-fast
- 8 CCD technology
- Deluxe, Italian 3-Point Clamps
- 2 Year Warranty
